

## Plant Pot Ideas

For this you will need:

- Old/new plant pots
- Old buckets
- Old Welly boots
- Paint
- Glue
- Any other decorations

Paint a plant pot with your house number!  
Remember when it comes to gardening you  
can make full use of the space you have!

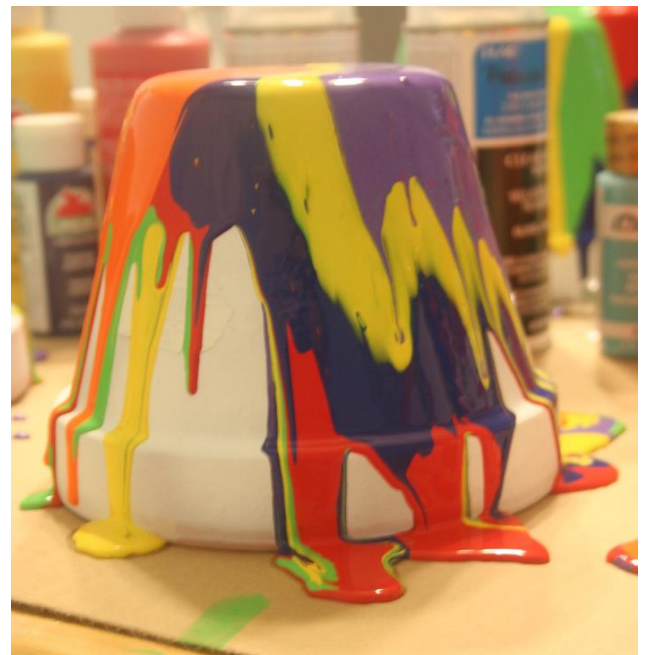

Glam up your plant pots with beads,  
stones, anything you can find!

Wrap some old twine around your posts to give them a textured look. Perfect as a sensory activity too!

This one is a bit messy but allows you to get creative! Just spill your choice of paint colours over the upturned pot and watch the colour magic!

Perfect if you have some old wellies lying around, a great opportunity to make a fun planter!
