

How to make an Easter Wreath

Equipment you will need:

- Scissors

- Glue

- Ribbon

- Paper plate/card

- Colouring pencils

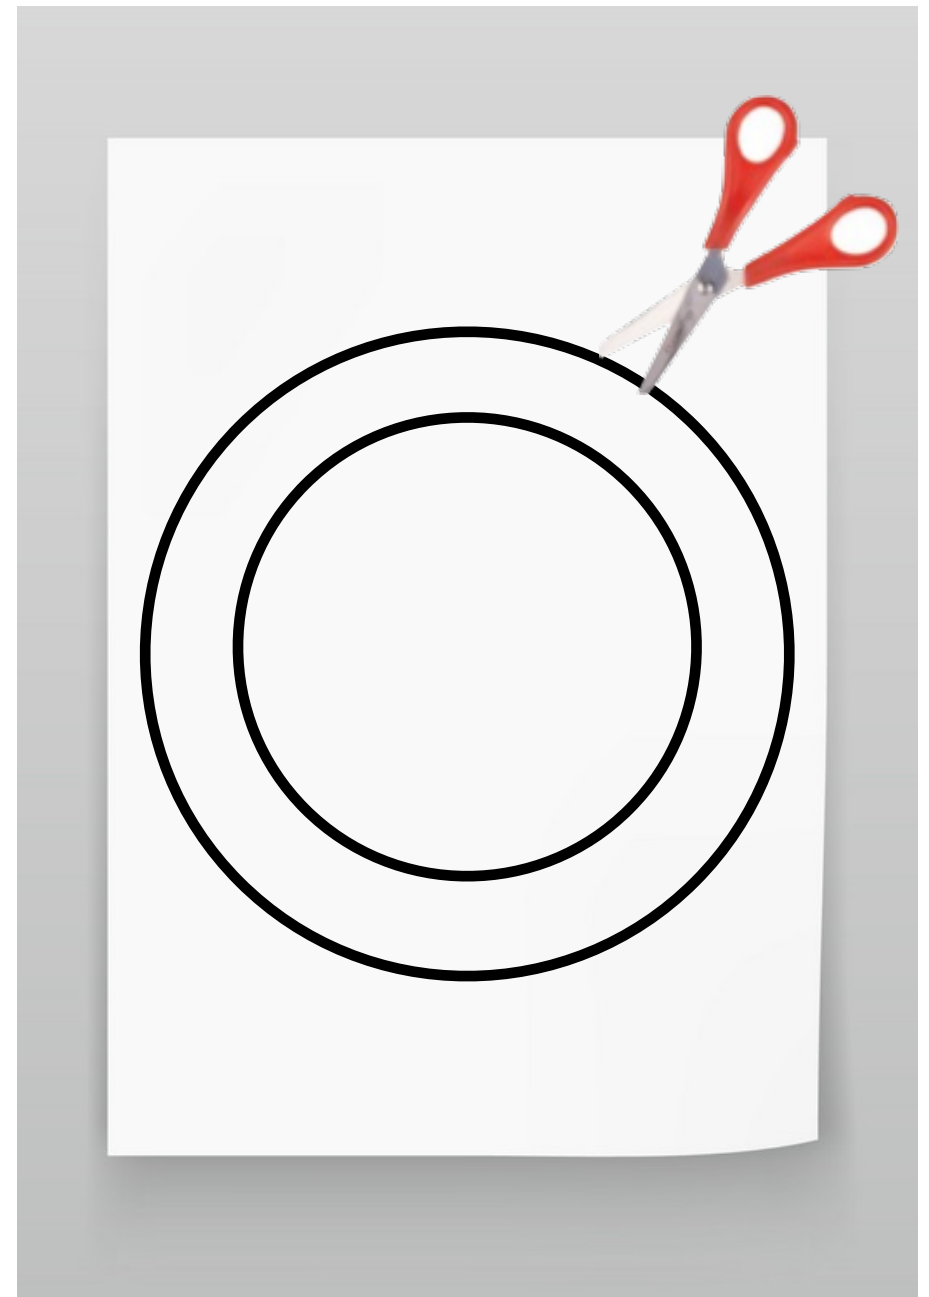

Draw around the centre of
your paper plate.

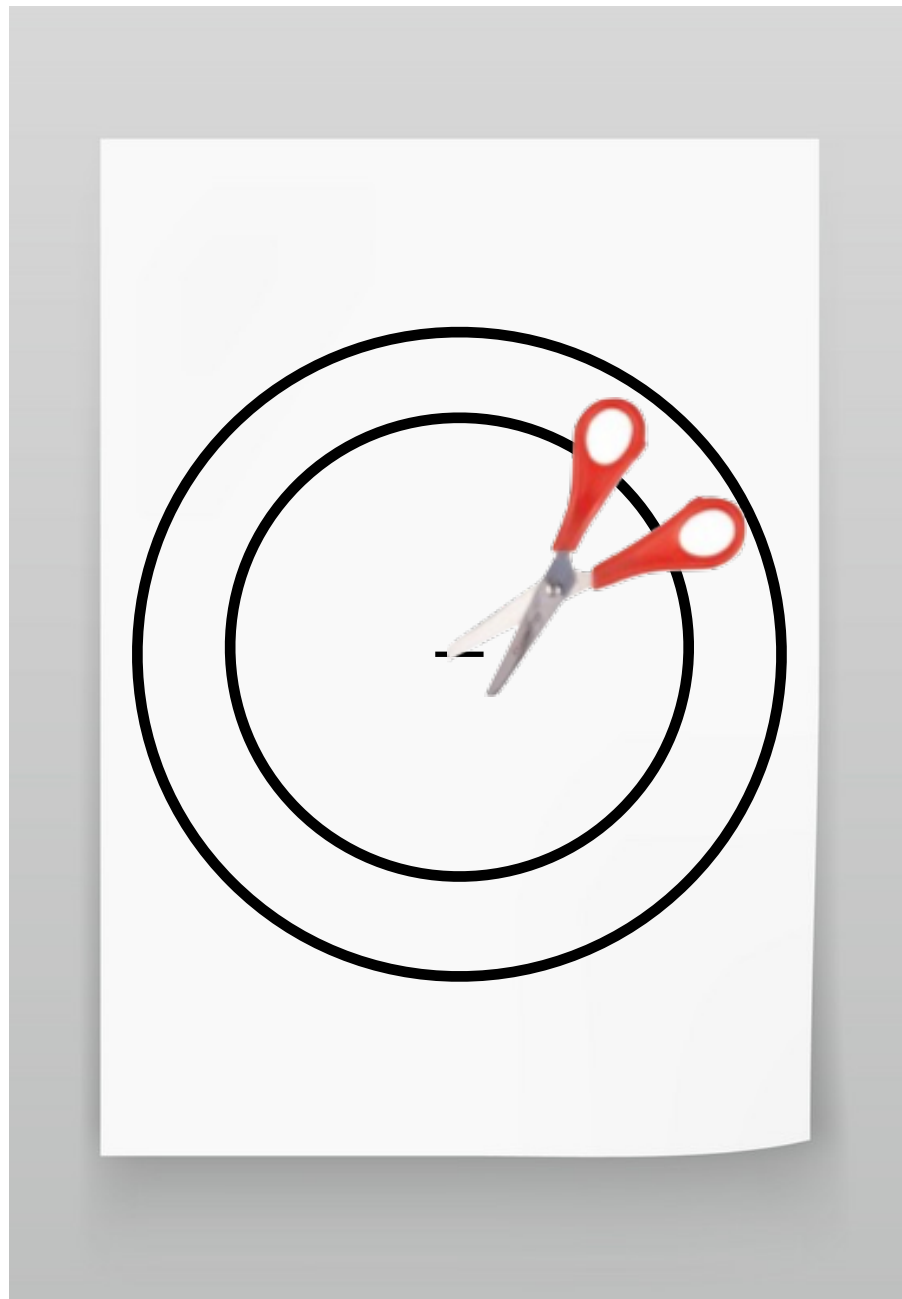

If you do not have a paper
plate, draw around a dinner
plate, onto a piece of card.

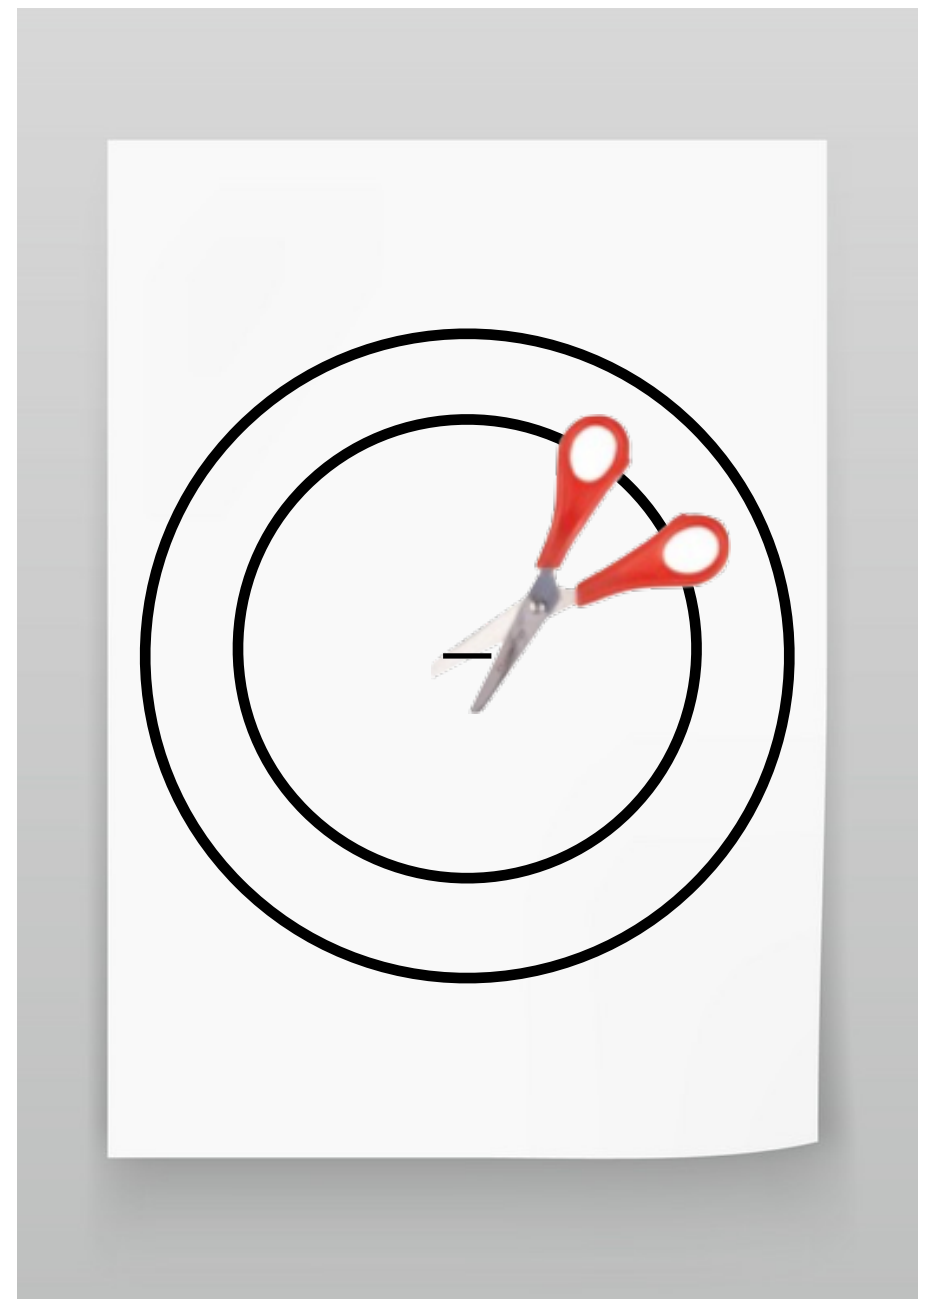

Now use a smaller plate to draw a small circle, inside the big circle.

If you are using card, cut around the big circle.

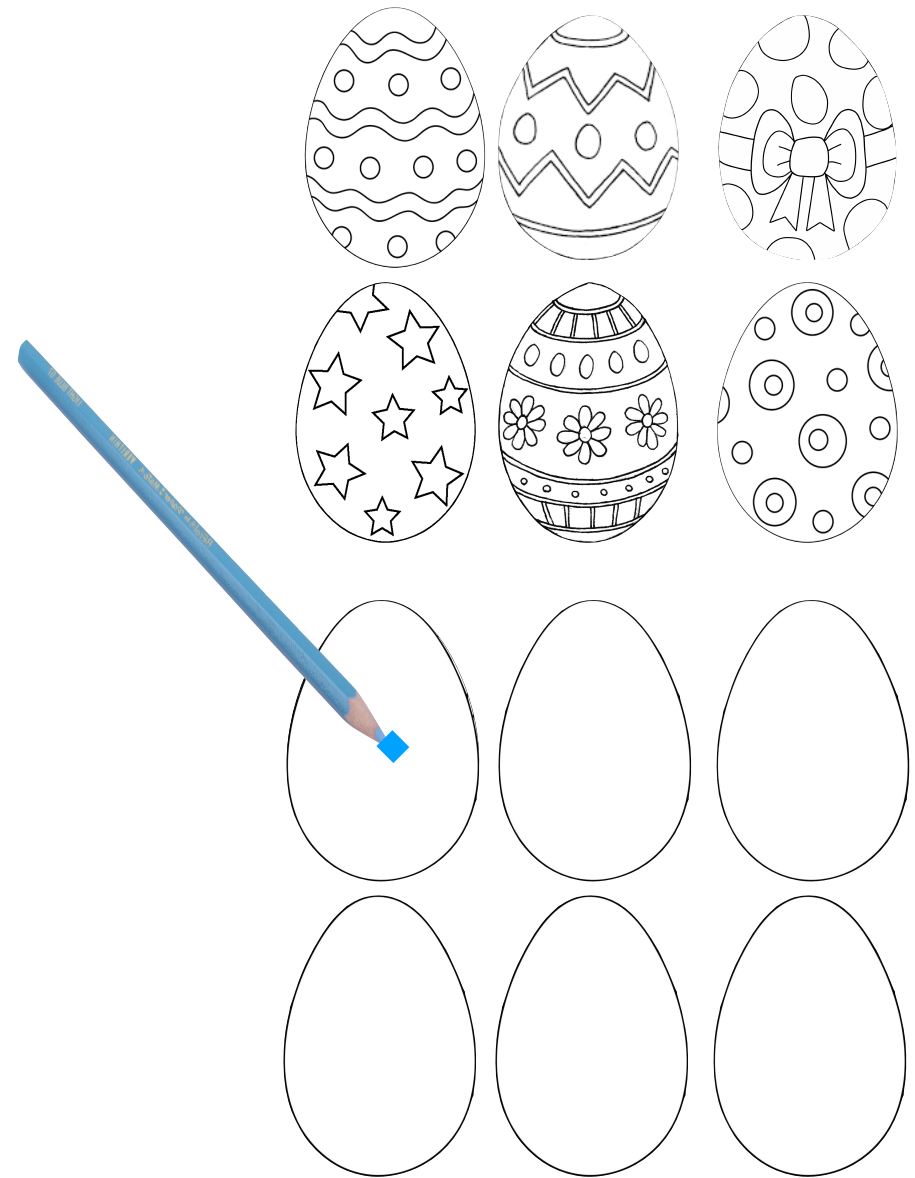

Now, using the scissors
make a small cut in the
middle of the card.

Use the opening and cut
out the centre circle.

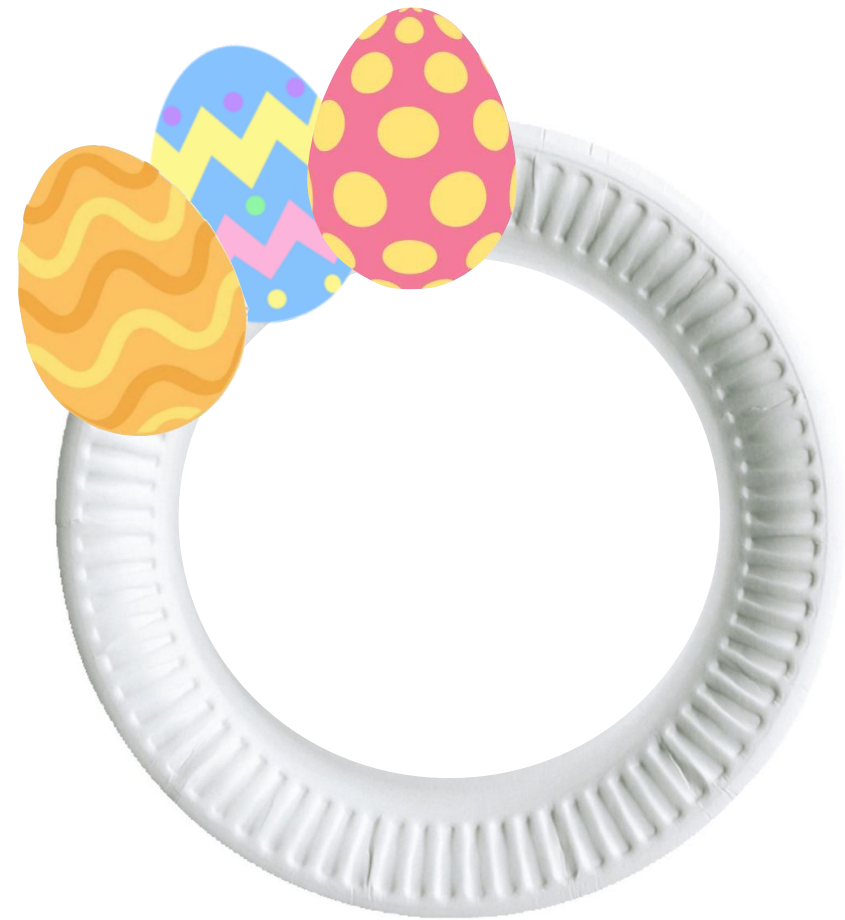

They should look like this.

Decorate your easter eggs.

Cut out your coloured
easter eggs.

When you have cut out all
your easter eggs, glue
them onto your cardboard
wreath.

When your wreath is done,
tie some ribbon to the
plate so you can hang it up.

Now your Easter Wreath is
finished.
