

Accordion Pop-Up Card

What you will need:

- 1 x A5 card paper
- 1 x A5 lightweight paper
- Writing pen
- Decorating materials
- Glue
- Double sided tape

Method:

1. Start with one A5 sized card paper and score down the middle to fold like a greetings card.
2. Take the bit of light-weight paper and fold backwards and forwards like an accordion all the way down the lengthways of paper.
3. Fold the accordion like a fan and glue the ends together.
4. Ensure the fan stays together while the glue dries.
5. Using double sided tape, affix the fan to the card like in the picture. Ensure the fold of the fan matches the score line in the centre of the card.
6. Write the message on your card and decorate how you desire.
7. Once finished you can send to your friend!

Object Pop-Up Card

What you will need:

- 1 x paper, any size
- 1 x card larger than the paper
- pencil
- scissors
- small cut out shape of anything you want
- crayons, markers, or stickers to decorate

Method:

1. Fold your smaller paper in half and fold back to make a good fold.
2. Draw 2 lines on the edge of a folded card about 2 inches apart and 1 inch in. You can make multiple marks depending on how many objects you want to pop out.
3. Cut along the pencil lines with your scissors.
4. Open up the whole card and bend the new smaller fold forward, making it pop out.
5. Glue any shape you want to the fold that pops up. Make sure not to put glue on the top of the step, just the front edge.
6. Glue the card paper to the back to add colour and strength.
7. Then write your message wherever you want on the card and give to your friend.
