

Cereal Box Aquarium

What you will need

- Cereal box
- Scissors
- Colour card
- Glue
- Googly eyes
- String
- Pipe cleaners
- Sand, rocks and shells

Method

1. Turn the box landscape and cut out one side.
2. Fill the bottom with sand, rocks, shells and anything else you can get your hands on!
3. Make the back wall blue, you can do this with card, colouring pens or paint.
4. Use the pipe cleaners to make algae and seaweed. You can use cut-out paper for this too.
5. Now is time to get creative! Cut out your favourite under sea creatures using the coloured card and bring them to life with googly eyes. See some ideas below!
6. Anything that swims can be suspended from the top using string.

Paper Plate Fish

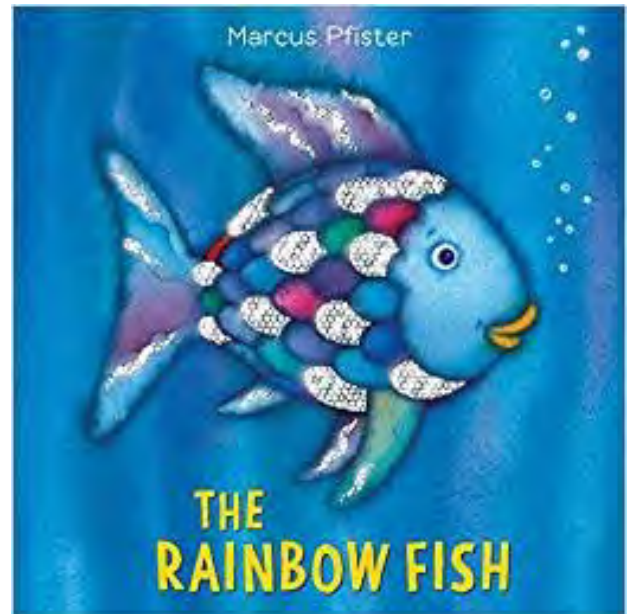

Inspired by Rainbow Fish

What you will need

- Paper plate
- Googly Eyes
- Blue, red, purple and white tissue
- Blue paint
- Scissors
- Glue

Method

1. Cut a small triangle into the edge of the plate to make the mouth.
2. Paint the whole plate blue including the cut off triangle.
3. Glue the triangle to the other side of the plate to make the tail.
4. Cut the tissue into semi circles to make the scales.
5. Glue the scales all over the plate.
6. Add a googly eye just above the mouth.

Paper Plate Jellyfish

What you will need

- Paper plate
- Scissors
- Googly eyes
- String, tissue, ribbon colour paper
- Paint
- Glue, hole-punch

Method

1. Cut a paper plate in half. It need not be a straight line, a curvy line can make it look more like a jellyfish top
2. Paint the half plate as you wish
3. Add googly eyes
4. To make the tentacles with string or ribbon you add punch holes into the cut side of the plate and tie long strands through.
5. With tissue or paper you can cut long strands and glue to the plate.
6. You can hang your Jellyfish or even use them as table decorations.
