

Meet Megan

**Home Manager
Twyford Gardens,
Worthing**

About Megan

Driven by personal experience, Megan's journey into care began at a young age, supporting her mother during periods of ill health. This early responsibility instilled a deep sense of empathy, resilience, and understanding, shaping her values and inspiring a lifelong passion for helping others.

Over the past four years with Achieve together, Megan has developed leadership skills and professional expertise, progressing into a management role where she leads by example.

"I take pride in fostering a culture of empathy, collaboration, and continuous improvement, always striving to enhance the quality of life for those that I support."

"I take pride in adapting my approach to each individual, ensuring that every person feels valued, heard, and empowered to live a fulfilling life."

Megan's key skills

Megan holds a Level 5 Diploma in adult social care leadership, and Level 3 qualifications in mental health and end of life care and is experienced in supporting individuals with complex and diverse needs. She is highly skilled in liaising with people supported, families, multidisciplinary teams and care professionals, ensuring collaborative working and the best outcomes for all.

Megan's successes

Megan's proudest achievement is moving from hands on care into a position in which she can lead, support and inspire others. She takes great pride in consistently delivering and promoting person-centred care, ensuring that individuals are supported in a way that respects their choices, dignity and independence.

Megan's success is measured by the positive impact she has on individuals, families and her team. A key focus is exploring new and meaningful opportunities for the people she supports, encouraging greater independence, community involvement, and enriching life experiences.

Looking ahead, Megan is passionate about driving continuous improvement within the home, ensuring it remains a safe, supportive and person-centred environment where individuals can thrive.
