

Meet Lynn

Home Manager Supported Living, Wem, Shropshire

About Lynn

Throughout her career Lynn has always worked with people in various settings, first in a school, then a supermarket and then when she moved into care. At Achieve together Lynn has worked her way up through various roles and is now a registered Home Manager in Shrewsbury. Lynn loves the area and has enjoyed developing relationships with the team and people we support there.

Lynn's key skills

Lynn has always been proactive about professional development and holds the following qualifications:

- Level 3 NVQ in Adult Care
- Level 5 Diploma in Leadership and Management in Adult Care
- Internal PASS+PORT PBS Trainer

She is currently working towards a Level 5 Coaching Professional Diploma.

"I am good at organising and bringing people together. I try to resolve situations with humour as that can go a long way to avoiding conflict".

Lynn's successes

Lynn has helped many people over the years, but her proudest achievement was helping a lady who was in residential support for 21 years, to move into her own flat in a supported living home. Nine months on the lady is thriving in her new home and has become so independent. Trust was built and small things such as introducing a mobile phone have really helped, the lady now feels comfortable using the phone and will ring if she ever feels uncomfortable or upset.

"I am currently on a Coaching Diploma course, to help further my skills and help my team and the people we support with the skills they need to deal with situations they come across both inside and out of the home".
