Dorking

About this home

Tuscany House accommodates up to 6 adults and has been designed with input from our autism qualified Psychologist. The environment is autism-friendly in terms of layout, facilities, decor and furnishings

Our approach

We use reflective and creative approaches to working with people on the Autistic Spectrum who present with complex communication and behavioural needs.

We aim to create a low arousal and structured environment, with an embedded highly visual total communication culture.

Quotes from relatives

“Thank you to you and all the staff for doing such a great job. You are all absolutely amazing”

“You are all doing a great job and Nick seems to be having much more fun than me!”
